

PICOPATT Internship

Schedule & Deliverables Update

An Pham | LIRMM-ADVANCE | Supervisors: Luc & Reda

May 13, 2026

Defense + submission (key dates)

- Defense in person: **July 3, 2026 at 11:45**.
- Report: scientific paper in L^AT_EX, **≥12–14** double-column pages.
- Report target: **June 26**; school deadline: **June 27, 2026** (midnight **AoE**).
- Evaluation form (Moodle) from lab supervisors: **deadline June 26, 2026**.
- Defense slides: **15 min**; upload **by July 2, 11:45** (**≥24h** before).
- Proposed checkpoints: **June 8** first draft; **June 22** admin check + day-count review.

Questions for supervisors

Drafting & review

- Is **June 8** a good target for the first structured draft (v0.1)?
- How often should I send drafts (e.g., weekly or at big milestones)?
- How many days should I expect to wait for comments (e.g., 2–5 days)?

Defense preparation

- Would you like to review the defense slides **before July 3** (e.g., late June)?

Next week schedule

Next week

- **May 19:** endoscopy; telework; 4h hospital stay; limited availability.
- **May 20:** telework; requesting it be counted as a day off.

Admin

- Request (Luc): please share my monthly day-count before submission so I can review.

Work plan (now → June)

- Start writing the final report now; lock structure early.
- Implement the changes we agreed last meeting while generating final figures.
- Maintain reproducible outputs to support report tables/plots.
- Build a 15-min defense deck in parallel once the report narrative stabilizes.

After the defense

- After July 3: continue internship normally at the lab.
- Paper/manuscript submission: discuss scope and timing after the defense.

Thanks — questions / suggestions welcome.
